

## The ELEKTA – NACP grant

Elekta, together with the Nordic Association for Clinical Physics (NACP), has established “The Elekta – NACP grant”. The aim of the grant is to support clinically working physicists in the field of radiation therapy and to encourage research and development in the field.

The grant of 3 500 EUR will be awarded once per year to one physicist that has submitted the best motivation to why he/she should be awarded the grant.

Criteria for selecting the winner are: relevance of the study/project/collaboration, originality, and usefulness within the field.

The evaluation will be performed by a board appointed by the NACP council. In case of equally assessed applications the board has the casting vote. In addition, the winner of the grant should be able to make a short presentation upon request.

The application form and the final announcement will be found on the NACP website ([www.nacp-nordisk.org](http://www.nacp-nordisk.org)) as well as on the websites of the Nordic National Member Organisations.

Applicants are invited to submit their forms no later than 1<sup>st</sup> of November 2013.

# NACP

Nordic Association for Clinical Physics

An umbrella organisation for: Danish Society for Medical Physics • Finnish Association of Medical Physicists • Icelandic Society of Biomedical Engineering and Medical Physics • Norwegian Association of Medical Physics • Swedish Society of Radiation Physics

## Application form: The ELEKTA – NACP grant

First name: .....

Last name: .....

Birth date: .....

Title: .....

Specialization and working years as a clinical physicist:  
 .....  
 .....

Hospital/Institution: .....

Address: .....

Phone: .....

E-mail: .....

Short description of the study/project/collaboration:.....  
 .....  
 .....

Duration of the visit (if known): .....

.....

Travel plan:

Have any funds been applied for or received for the same purpose?

Enclose a *maximum of one page* describing the study/project/collaboration.

Send your application to:
