

CLINICAL SCIENTIST MR

Academic Work seeks a Clinical Scientist MR (Magnetic Resonance) for Philips Healthcare. Philips Healthcare is a worldwide producer and supplier of radiological equipment and service. For their Nordic Clinical Science team they now need a Clinical Scientist MR working out of their office in Copenhagen. The right candidate will become a part of a research team that is in the forefront of their field in Europe, and will be involved in projects that will have a large impact on radiological treatment in the future.

As a Clinical Scientist your primary tasks are to be the responsible research contact between the Clinical Science department, other R&D departments and research consultants at private institutes and hospitals. You will support collaboration between sites with mutual interests and be an ambassador for the individual institutes you will be co-operating with. To support customers in selected projects and strive towards maximizing the outcome of a study to the benefit of both the company and the customer is an essential part of the job. By extracting information, images and results, you will make regular reports on current developments to the assigned contacts in Clinical Science. Furthermore you will support the sales process to eligible (university) sites and support the continuous scientific education of other personnel in the company.

We are looking for you, who have:

- Minimum a Master of Science. Technical or Medical background, PhD preferred
- Minimum 1 year of experience with Magnetic Resonance Imaging (MRI)
- Good NMR/MRI knowledge
- Clinical knowledge from a radiological department will be considered a benefit
- Knowledge in pulse programming will be preferred and teaching skills is considered an asset
- Fluent in English both written and oral. Fluent Scandinavian language (preferably Danish)

As a person you work independently but still know the importance of working in a team. You are a good teacher and a dedicated scientist, willing to sacrifice for the benefit of the greater good.

In return you will get a unique chance to become a part of a world leading company and enjoy and endure the benefits of being at the forefront in Medical Research.

Start: August

Scope: Full time. The position is a full-time temporary position with a three year perspective and prospects of permanent employment

Salary: Fixed salary

Workplace: Copenhagen

Travel: Irregular working hours associated with projects and business travel are to expect.

Contact person: Nickie Victoria Sonne, 41 32 40 81

Ref.: NS623

Please send your *application and CV in English* as soon as possible through our website www.academicwork.dk.
